

## Datasheet

# Coil pack 5-cylinder

The coil pack 5-cylinder is an ignition module suitable for 5-cylinder engines. This coil pack comes without an integrated amplifier and is therefore not suitable for direct connection with a Carrot ECU. A Carrot ignition driver is needed.

The 12V supply needs to be connected to the threaded end on top of the coil pack.

### Connections

Pin 1	Ground
Pin 2	Ignition coil cylinder 2 (A)
Pin 3	Ignition coil cylinder 4 (B)
Pin 4	Ignition coil cylinder 5 (C)
Pin 5	Ignition coil cylinder 3 (D)
Pin 6	Ignition coil cylinder 1 (E)

### Ordering information

<b>Coil pack 5-cylinder</b> - C-020-0006	€220,-
<b>Connector coil pack 5 cylinder</b> - C-050-0044	€12,50
<b>Carrot ignition driver 2-coil</b> - C-020-0003	€80,-
<b>Carrot ignition driver 4-coil</b> - C-020-0004	€120,-
