

Datasheet

Trigger wheel

These universal trigger wheels are used in combination with a crank sensor, to determine the RPM and reference point. There are 3 different configurations available: 60 teeth minus 2 teeth (60-2), 36-2, 24-2. All trigger wheels are designed with a 10mm centerhole.

Technical Specifications

60 teeth	minus 2 teeth	Diameter 150mm
36 teeth	minus 2 teeth	Diameter 125mm
24 teeth	minus 2 teeth	Diameter 96mm

Ordering information

Trigger wheel 60-2 pattern - C-035-0001	€30,-
Trigger wheel 36-2 pattern - C-035-0002	€28,-
Trigger wheel 24-2 pattern - C-035-0003	€26,-
Crank-sensor inductive - C-030-0008	€45,-
