

Datasheet

Injector Bosch EV14 xT

These injectors are modern Bosch EV14 xT injectors with multiple nozzles resulting in a nice spray pattern. The injectors are available in different flow rates suitable for the desired application. The injector is suitable for gasoline and E85 fuel (after methanol-operating, the valves must be flushed with standard gasoline-fuel).

Technical Specifications

Pressure max. 5 bar

Weight: 24g

Top-feed fuel input

Fuel compatibility: Gasoline/E85

- Bosch EV14 xT
- Flow rates 350cc, 500cc or 950cc (3 bar)
- Maximum fuel pressure 5 bar
- Top feed fuel input

Connection

Pin 1: 12V supply

Pin 2: Signal

Flow rate (at 3 bar)

C-040-0001	4 spray holes	350cc
C-040-0002	10 spray holes	500cc
C-040-0003	7 spray holes	950cc

Ordering information

Injector Bosch 350cc EV14 xT - C-040-0001	€65,-
Injector Bosch 500cc EV14 xT - C-040-0002	€75,-
Injector Bosch 950cc EV14 xT - C-040-0003	€95,-
