

Datasheet

Superseal connector

- Female and male wire to wire connector
- 1 to 6 pin positions
- IP 67 sealing

The AMP superseal 1.5 connector series is a high quality and reliable connector for wire to wire applications. Due to its sealing it is proven under the most harsh conditions in a harness assembly, engine mounting or under the hood environments. Due to its design, the connector and pins are easy to assemble and disassemble if needed.

Technical Specifications

1 to 6 pin positions

IP67 sealing

Current per contact: 14A max

Tin plated contacts

Wire size range: 0.35-2.5mm²
